

Are you a veteran with hearing loss?

Do you use hearing aids?

The Hearing Loss Association of America is ready to help US Veterans live more successfully with hearing loss, hearing aids and other assistive technology.

You are not alone. Thousands of veterans experience hearing loss and it can have a big impact on a person's life. Even with today's technology, the best hearing aids do not give normal hearing, can't separate the sounds you want to hear from background noise, or pick up all the sounds coming from a distant source like a stage or movie screen. Many hearing aid users benefit from assistive technology such as hearing loops that can help you hear *dramatically* better, in places where hearing devices alone are unable to deliver.
